Sat Nov 24	10	47	
Sun Nov 25	11	48	
Mon Nov 26	12	49	AM
Today	1	50	PM
Wed Nov 28	2	51	
Thu Nov 29	3	52	
Fri Nov 30	4	53	

description

Calendar   Friends   Explore   Profile

3. Fill in event name and pick the date and time, click on 'set', it will now go back to the main screen and the expected result is that the new event you just create add to the agenda of that day.
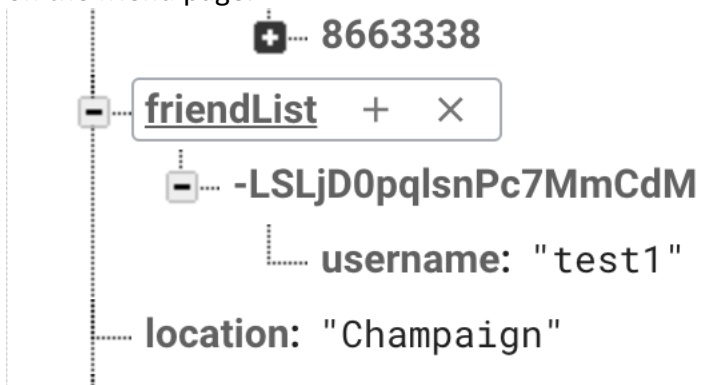

4. Go to the console of firebase database and check if the new event added to the database

5. Next step is to check friend page.
   We should be able to see all friend of the user.

6. Click on '+', it will pop up a add friend window just like below

8.Click 'Add Friend' will add the user you just entered to the database and it will also appear on the friend page.

9. Next step is to check post page.
In this page we should be able to see everyone's post. Each post has its context and the username.

POST

test1
user: test1

Test2
user: test1

Hello world！！

user: zzhu41

+

Calendar   Friends   Explore   Profile

Long press on each item will pop up a window to ask you if you want to delete the post.
